

Project Design Phase-I

Solution Architecture

Project Name	VirtualEye- Life Guard for Swimming Pools to detect active drowning
---------------------	---

Solution Architecture Diagram:

Solution architecture is a complex process – with many sub-processes

– that bridges the gap between business problems and technology

solutions. Its goals are to:

- ❖ Find the best tech solution to solve existing business problems
- ❖ Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholder
- ❖ Define features, development phases, and solution requirements
- ❖ Provide specifications according to which the solution is defined, managed, and delivered
